

SCHOLARSHIP

Blue Quartz International is a leading Civil, Structural and Transportation Consulting Engineering Firm with offices in Johannesburg, Cape Town and East London. BLUE QUARTZ INTERNATIONAL offers fulltime undergraduate bursaries to two well deserving students each year to study at a recognized South African University. Successful applicants will be chosen on merit but the scheme is limited to students from disadvantaged backgrounds. ***Students who have not done mathematics and physics on higher grade in matric will not qualify.***

The bursary covers travel, residence and course fees for the duration of the course. Applicants should provide a two page curriculum vitae, certified copies of their Grade 11 or Matric final results and three letters of recommendation from contactable referees. ***Closing date for applications for each succeeding year of study is 30th September.***

OUR SPHERES OF OPERATION

BLUE QUARTZ INTERNATIONAL operates in the fields of structural, civil and transport engineering and has principal offices in both Cape Town and Johannesburg. The firm's partners are able to draw on more than seventy year's collective experience and expertise.

BLUE QUARTZ INTERNATIONAL is able to offer a comprehensive range of professional services, including Infrastructural, environmental, structural and transportation engineering. We strive to provide the highest levels of quality workmanship through the application of a fully integrated approach to multi-disciplinary challenges. We pride ourselves on being able to find and devise effective solutions to complex engineering

INFRASTRUCTURE ENGINEERING

BLUE QUARTZ INTERNATIONAL is able to demonstrate experience and expertise in infrastructure engineering, including township and rural housing, bulk infrastructure developments, external works for commercial developments, water supply and storage, sewer, storm water management and landfill projects. Our expertise covers urban and rural road planning, design and construction management. We have expertise in the design of bridge structures as well as toll road feasibility studies, incident management systems; and road and pavement rehabilitation and maintenance.

STRUCTURAL ENGINEERING

BLUE QUARTZ INTERNATIONAL recognises the intrinsic value of establishing substantive and viable working relationships with other professionals and experts in the built environment sector and we regularly engage with this network of exceptional collaborators thereby bringing additional layers of experience and expertise to our project commissions.

While our offering includes the provision of structural engineering and design services for both commercial and industrial projects, we are also able to provide structural defect and failure analyses, evaluation and reporting, concrete remediation and asset management.

TRANSPORT ENGINEERING

BLUE QUARTZ INTERNATIONAL recently participated in the engineering consortium responsible for the evaluation of designs compliance for the internationally important Maputo Corridor development scheme; the N3 Corridor and the N4 Platinum Highway.

SPECIALIST SERVICES

As a measure of our standing with the regard in which the National Government, holds BLUE QUARTZ INTERNATIONAL, particularly for in respect of our participation in community initiatives, our company has been was handpicked to serve as the National Empowerment Manager for the Strategic Projects Initiative of the Department of Public Works, which included the development facilitation of emerging contractors.

BURSARY CONDITIONS

The bursary is available for study as a full-time undergraduate student in the B.Sc. Civil Eng courses at any recognized South African University. Students are required to be in full-time attendance for the University calendar year. Particulars regarding the course are obtainable from the respective Universities.

The bursary covers travel, residence and course fees for the duration of the course. Applicants are restricted to South African nationals, and successful candidates will be chosen on merit. Preference will be given in the bursary scheme to candidates from disadvantaged backgrounds. Applications will be screened by the Board of BLUE QUARTZ INTERNATIONAL.

Applicants should be in possession of a valid, qualifying Matric Certificate before entering University. ***Students already at University are also encouraged to apply.*** Bursaries are awarded conditional to a successful Matriculation examination. BLUE QUARTZ INTERNATIONAL reserves the right to review the conditional provision of a student bursary. Prospective bursars must provide an up-to-date curriculum vitae, ***certified*** copies of their Grade 11 or Matric certificates, results transcript and three contactable professional referee's letters of recommendation. Short-listed candidates will be required to provide a letter of motivation as to why the bursary should be awarded to them.

Successful applicants would be required to submit a report at the end of each year of the course, detailing experience gained and accomplishments during the year of study. Students will be required to work for BLUE QUARTZ INTERNATIONAL for an equivalent period as that of the course.

The closing date for applications is 30th September each year for the next year of study.
